---

Dynamic and results-driven final-year Bachelor of Business Information Technology student at Mount Kenya University under the School of Computing and Informatics. With a robust academic foundation and hands-on experience in business-aligned IT solutions, I bring a strategic blend of technical and business proficiency. My specialization in enterprise systems has equipped me with expertise in network infrastructure, software development, and data-driven decision-making, positioning me to bridge the gap between technology and organizational efficiency.

## CORE COMPETENCES

---

- ❑ **Full-Stack Web Development:** Proficient in building dynamic web applications using Python, Django, Docker, REST APIs, JavaScript, React and Tailwind CSS.
- ❑ **Networking & IT Support:** Solid understanding of network protocols, IP addressing, routing, switching, and resolving connectivity issues.
- ❑ **Database Management:** Experienced in designing, managing, and securing MySQL and PostgreSQL databases. Skilled in data modeling, queries, and data security.
- ❑ **Version Control & Team Collaboration:** Proficient in Git & GitHub for code versioning, teamwork, and project tracking.
- ❑ **MS Office Suite:** Proficient in Word, Excel, PowerPoint, and Access for documentation, data analysis, and reporting.
- ❑ **Communication & Teamwork:** Effective communicator with experience in team-based projects, task sharing, and solution presentation.

## EDUCATION PROFILE

---

Bachelor of Business Information Technology  
Mount Kenya University  
2022 - Present (Expected Graduation: December 2025)

Kenya Certificate of Secondary School Education (KCSE)  
St. Mary's Boys HighSchool - Lushangonyi  
2018 - 2021

## SKILLS

---

### ❖ Software Development

- ☐ Python
- ☐ Django
- ☐ Docker
- ☐ REST APIs
- ☐ JavaScript
- ☐ React
- ☐ HTML5
- ☐ CSS3
- ☐ Tailwind CSS
- ☐ Git and Github

### ❖ Networking

- ☐ IP addressing
- ☐ Subnetting
- ☐ Routing & Switching
- ☐ Network troubleshooting
- ☐ Firewall configuration

### ❖ Database Management

- ☐ MySQL
- ☐ PostgreSQL
- ☐ SQL queries
- ☐ Data modeling
- ☐ Data security

### ❖ Microsoft Office Suite

- ☐ Microsoft Word
- ☐ Excel
- ☐ Access
- ☐ PowerPoint

### ❖ Soft Skills

- ☐ Problem solving
- ☐ Communication
- ☐ Team collaboration
- ☐ Time management

## LANGUAGES

---

- ✓ English
- ✓ Kiswahili
- ✓ Taita

## HOBBIES

---

1. Exploring new tech tools
2. Participating in tech communities
3. Blogging

## ACHIEVEMENTS

---

Designed and implemented a full-stack recipe application using React (Vite), Django REST Framework, and Docker, allowing users to register, authenticate, and manage recipes.

Developed the Mazara Investment Platform as a final year project, allowing users to pool money, manage shareholding, and distribute dividends within a secure web-based system.
