Nairobi, Kenya

## EXPERIENCE

### CruxFurge - Tech Events Platform

#### Personal Project - Full Stack Developer

**Technologies** - Next.js, Sanity, TailwindCSS, GitHub OAuth, Sentry, Vercel  
Jan 2025 - Mar 2025

- Developed a web application where users can create, view, and manage tech events using GitHub OAuth for authentication.
- Real-time error tracking using Sentry.
- Links: [Vercel](#) [Github](#)

### Recipe Management API

#### Personal Project - Backend Developer

**Technologies** - Django, Django REST Framework, JWT, PostgreSQL, Docker  
Aug 2024 - Dec 2024

- Developed a RESTful API for managing recipes, featuring CRUD operations, image uploads, tagging, and filtering. Implemented JWT-based authentication to secure endpoints.
- Test-Driven Development (TDD) with 95% test coverage.
- Dockerized for easy deployment and scalability.
